

Warren Wilson Community Commitment

We as Warren Wilson College embrace the
Triad of Academics, Work and Service.

By choosing to participate in
this unique college that values
community, social justice and the environment,
we commit to:

Cultivate integrity, holding ourselves and others accountable.

**Accept responsibility for our words, behaviors
and their impacts.**

Respect ourselves, others, and our surroundings.

**Engage in honest and constructive communication,
even in the face of differing opinions.**

**Sustain healthy balance within our personal
and communal lives.**

Understanding that many participants have come before
and many more will come after,
we protect and nurture our
social, academic and ecological community
by holding ourselves to these commitments today.
