

## All Crews Quarter 1 (July – Sept.) 2009/10 Fuel Use

### How are we doing?

Goal this year: ↓ 10%

Quarter 1 actual: ↓ 7.98%

As a campus we were able to make a reduction. However, we are not meeting our 2009/10 fuel reduction goal yet. Make sure crew vehicles are being used as efficiently as possible, and only use them when necessary. Use golf carts, bicycles or your feet when possible!. We are aiming for a 50 % reduction in campus fuel use by 2014! Help us make it happen!
