

All Crews Quarter 2 (Oct – Dec) 2009/10 Fuel Use

How are we doing?

Goal this year: ↓ 10%

Quarter 2 actual: ↑ 8.38%

As a campus we are not meeting our 2009/10 fuel reduction goal of 10%. Make sure crew vehicles are being used as efficiently as possible, and only use them when necessary. Use golf carts, bicycles or your feet when possible! We are aiming for a 50 % reduction in total campus transportation emissions by 2014! Help us make it happen!
