Degree Equivalencies & Transfer Credit

- Which programs are we accepting to Teach Out?

Transfer of credit will include those credits accepted by Northland as transfer credits from another institution. Please contact the transfer admissions office for specific questions.
- Does the teach out only apply to the student's "declared major" on transcript or can students opt into other majors and still qualify for the Teach Out?
 - It is assumed that the Teach Out applies to the student's current declared major on their official transcript. It might be possible for students to complete a different major within 2 years, but this will not be within the parameters of the Teach Out.
- How are we verifying the timeline to graduation so that we can honor that?

- How are we calculating the cumulative GPA for students when they bring in Northland credits (especially those that are D's).
 - Northland Credits will transfer as bulk transfer credits. The Northland GPA will not be considered in the overall GPA until graduation, during which time it will be manually included in the overall student GPA and considered for graduation honors.

- How are we considering general education requirements?
 - It will be assumed that any Teach Out student who completed Northland College's general education requirements will automatically complete Warren Wilson College's general education requirements.
- I have transfer credit from an institution before Northland College, do I need to submit those transcripts?
 - No! Northland College clearly states the credit that was transferred and we will use that information to ensure the credits transfer to Warren Wilson College seamlessly.

- Do I have to complete Warren Wilson College general education requirements?
